

**Project Paradise Field Season Review
2006 Field Season**

February 26, 2007

Each year the Royal Botanical Gardens hosts a workshop for those involved in Cootes Paradise and Grindstone Creek research and monitoring. Approximately 45 researchers and observers attended the workshop. The research presented at this workshop is, in most cases, preliminary in nature and the workshop is intended as a forum for researchers to exchange information and ideas. The topics presented are included in the following list along with the presenters name and email address.
