

**Project Paradise Field Season Review  
2009 Field Season**

**February 23, 2010**

Each year the Royal Botanical Gardens hosts a workshop for those involved in Cootes Paradise and Grindstone Creek research and monitoring. Approximately 55 researchers and observers attended the workshop. The research presented at this workshop is, in most cases, preliminary in nature and the workshop is intended as a forum for researchers to exchange information and ideas. The topics presented are included in the following list along with the presenters name and email address.

<p>Project Paradise Season Summary 2009 – RBG Science Department</p> <ul style="list-style-type: none"><li>a) Restoration Overview</li><li>b) Water Quality Monitoring</li><li>c) Fish Community Monitoring at Royal Botanical Gardens during the 2009 Field Season</li><li>d) Wetland Plant Community Monitoring</li><li>e) Recovery Strategy for Carroll’s Bay</li></ul>	<p>Tÿs Theÿsmeÿer ttheysmeyer@rbg.ca</p>
